LAWSUITS.

An action was brought against the town for alleged damages on highway, in the Jan. term of Supreme Court, by Geo. A. Upton. It was put over to Sept. term. Amt. claimed, \$500.00. Atty. for the town, S. L. Bowers.

Respectfully submitted,

F. J. Emerson	} Selectmen of Washington.
Auren Peaslee	
Geo. L. Trow	

Washington, N. H. Feb. 28. 1889.

The committee chosen by the town to audit the accounts of the Selectmen find their accounts well vouched and correctly cast.

Ira Brockway,	} AUDITORS.
M. H. Dole,	

Report of Board of Education.

During the past year, schools have been maintained as follows. Center district, twenty-four weeks; East Washington, twenty weeks; New Boston district, twelve weeks; Mountain District twelve weeks; Turnpike district twenty-one weeks; Russell's Mill district, twenty-one weeks; North district nineteen weeks.

In districts maintaining but one term of school the scholars were allowed to attend the schools kept in the adjoining districts free of charge, that the spirit of the law might be carried out which requires equal school privileges for the children in all parts of the town.

The school at the Centre district secured three extra weeks of school by virtue of the Penniman fund. The inhabitants of the Brooks district choosing to send their children to the village school, no school has been maintained in that district the past year. The income of the Penniman fund in that district is therefore unexpended. It is suggested that the town ascertain the conditions upon which the district holds this fund, that its income may be put to some use.

In general, the schools have been well taught, and good progress has been made. By this we do not intend to convey the idea that that they have been faultless, but that there have been as few poor schools as could be expected.

Some substantial improvements have been made upon the school buildings the past year. The school houses in the mountain district and at Russell's Mill have been painted; the shed at the Center district has been thoroughly repaired and painted; improvements have been made upon the grounds around the buildings on the Turnpike; new blackboards have been provided for the school house at East Washington, and the school room has been papered.

The teacher and scholars of this school, from the proceeds of a literary entertainment, very much improved the school room by the purchase of a clock, table, chairs, and five books of reference.

Ere long something in the way of repairs or a new building, will be repaired in the vicinity of the Advent Meeting-house.

A short report of the different schools is appended, also the report of the treasurer of the Board.

GEORGE N. GAGE,	} School Board	
JESSE F. BAILEY,		of
SUMNER N. BALL,		Washington.

DIVISION NO. 1.

Both terms of this school were taught by Miss Eldora S. Farnsworth. Miss Farnsworth fully sustained her former good reputation as a teacher, and the examination at the close of second term indicated thorough instruction on the part of teacher, and a commendable degree of self-application on the part of scholars.

The greatest obstacle in the way of securing the best results in this school, we think, lies at the door of the parents in not sending more punctually, and in season to avoid tardiness. There are noble exceptions to this seeming indifference. The register in this division ought to awaken a livelier interest in the mind of every one who has scholars to send. This school had three weeks extra on account of a local fund for its benefit. In all 24 weeks.

J. F. B.

DIVISION NO. 2. [Mountain.]

One term of twelve weeks was taught by Miss Ada Blanchard of Washington, with good success. Perfect training furnished, and the only hindrance to progress was the very small number of pupils, the greatest number of any time being three.

One scholar, in the summer, availed himself of the school at the Center. Owing to the distance from other schools it seems rather necessary to provide a school here a part of the year, even though the number of scholars is small.

G. N. G.

DIVISION NO. 5. —East Washington.—

Two terms, one of nine, and another of eleven weeks, were taught in this division by Miss Agnes L. Barney of East Washington.

Miss Barney has guided this school without interruption for three years, the last year being the most successful of all—a record rarely if ever equaled in this school. We hope that she may be induced to continue her good work.

G. N. G.

DIVISION NO. 6.

Miss Luella E. Farnsworth taught two terms in this division—one of 9 and one of 12 weeks. Miss Farnsworth gave perfect satisfaction, so far as we know, and the school made satisfactory progress. The order was good, the examinations praiseworthy. Miss F. is studiously inclined, and is destined, if she continues in the profession, to rank high as a teacher.

J. F. B.

DIVISION NO. 7. (Russell's Mills.)

Miss Flora C. Farley, of Marlow, teacher for the year, Miss Farley proved an excellent instructor, and with practice is destined to become one of our best teachers. She labored here for the interest of the school and scholars, fully realizing her duty and the responsibility resting upon her. The scholars were strong in their studies and showed that what they had done they had done well. A little more unity and support by the parents in this division would be beneficial in school affairs, yet we can truly say that we believe that this was a very profitable school.

DIVISION NO. 8. —New Boston.—

But one term of school was taught in this division, the scholars attending the spring term at East Washington. A term of twelve weeks was taught in the fall by Miss Anna L Chamberlin of East Washington. It was Miss Chamberlin's first attempt at teaching, and the school appeared well at both of the visits of your Committee. The school is small, and, as a rule, should be united with that of East Washington.

DIVISION NO. 7. [Butterfields.]

Miss Nettie B. Crain of Washington, teacher both terms. This was Miss Crain's first attempt at teaching, and considering the circumstances under which she was placed did remarkably well. The school was very small, not only in numbers, but also in size of pupils, which made it quite hard for the teacher to keep them interested. However, they all learned rapidly, and at the examinations we were surprised to see the large amount of valuable information which their little minds had stored away.
